

LUBYSIL BCN 40 STAINLESS & TITAN TECHNICAL DATA

DESCRIPTION

Lubysil BCN 40 is a highly concentrated blend of E.P. additives and lubricating agents balanced together for maximum cutting performance.

BCN 40 can be used neat for extremely severe applications, machining the toughest metals in the most difficult operations,

BCN 40 can be used on all metals

BCN 40 is inhibited against staining and is easy to remove.

APPLICATIONS

BCN 40 can be added to a suitable base oil can be used as a circulatory neat cutting oil suitable for automatic/N.C. Lathes etc. Concentrations of 20% BCN 40 would be suitable for this type of application.

TECHNICAL DATA

Kinematic Viscosity @ 40°C 36 cSt

Relative Density @ 15°C 1.13

Flashpoint (°C) (PMCC) > 150°C
