

LUBYSIL BCO 14
Technical Data Sheet

LUBYSIL BCO 14 Is A Unique Ultra Low Viscosity Cutting Fluid.

Developed for machining very tough metals in the aerospace and nuclear industries.

Increases tools life, improves surface finishes, enables closer tolerances to be maintained and is very well suited to machining very small diameter holes.

Proven over 40 years in precision engineering LUBYSIL BCO 14 has included amongst its customers the most famous names in engineering.

Available in aerosols, and 5 litre cans.

LUBYSIL BCO 14 can be applied by brush, oil can or squeeze bottle.
